

Kentucky Bluegrass

RUBIX

Benefits:

- ✓ **Fine leaf texture**
- ✓ **Quick establishment**
- ✓ **Good turf density**
- ✓ **Suited for residential lawns, sports field, and some golf course applications**

Seeding Rates:

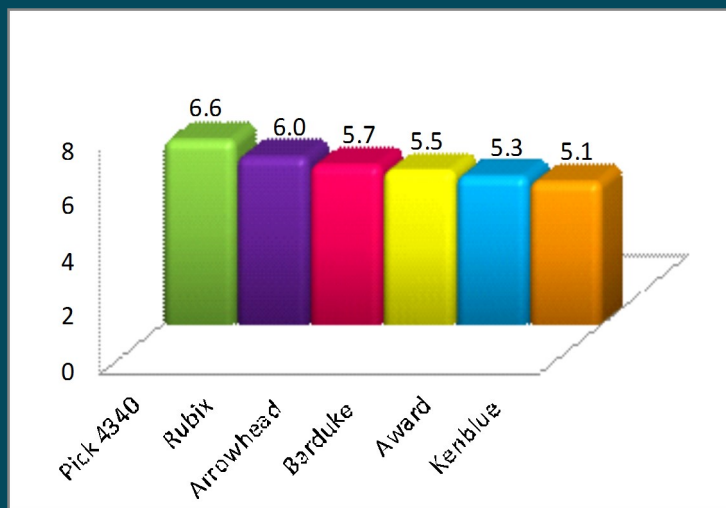

3-4LBS/1,000 square feet for new establishment

1-2LBS/ 1,000 square feet for overseeding

Rubix Produces a fine leaf medium green color leaf blade while offering good turf density throughout the growing season. It has also shown excellent performance under high traffic areas .

Rubix is ideally suited for home lawns, parks, sports field, commercial properties, sod production, golf course tees, fairways and roughs. It will also mix well with other grass species like perennial ryegrass, fine fescue, and tall fescue.

When looking for a high performing Kentucky Bluegrass Rubix, will deliver.

2011 NTEP Kentucky Bluegrass test 2012 data. Performance Index (LPI) Group 1. Mean turfgrass quality rating 1-9; 9= ideal turf. LSD 0.9. Top variety Pick 4340 (6.6) Bottom variety 3733 (4.3). See full report and more data available at www.ntep.org
